

Ahmad Sidaoui

Vienna, Austria — Open to Relocation — +43 664 2053998
ahmadsidaoui@gmail.com — linkedin.com/in/ahmad-s-a1586513a

Professional Summary

Data Scientist and Production Analytics professional with experience delivering machine learning models, analytics workflows, and BI solutions for the oil and gas industry. Skilled in production data analysis, SCADA data workflows, forecasting, anomaly detection, ETL pipelines, and dashboard development supporting engineering and operations teams.

Technical Skills

Programming: Python, SQL, CSharp

Data Engineering: ETL/ELT, Data Pipelines, Airflow, Docker, Time-Series Data

Machine Learning: Production Forecasting, Anomaly Detection, Predictive Modeling

Visualization: Power BI, Spotfire, Tableau

Domain: Production Analytics, Petroleum Engineering, Well Performance Monitoring

Professional Experience

Weatherford

Jan 2025 – Mar 2026

Senior Professional Services Engineer

Baden, Austria

- Developed machine learning solutions for oil & gas production forecasting and anomaly detection using operational and SCADA datasets.
- Built Power BI and Spotfire dashboards for production monitoring and well performance analysis used by engineering teams.
- Implemented analytics workflows for production surveillance and operational issue detection.
- Supported client-facing technical discussions, demos, and workshops as an analytics subject matter expert.

Datagration / Myr:conn Solutions

Aug 2023 – Dec 2024

Technical Consultant (Data Science & Production Analytics)

Austria

- Developed analytics workflows for petroleum engineering and production optimization projects.
- Built and optimized machine learning pipelines for production forecasting and performance monitoring.
- Integrated operational datasets into unified reporting dashboards for engineering teams.
- Collaborated with clients to translate operational requirements into analytics solutions.

Research Experience

TU Wien / OMV

Feb 2021 – Jan 2023

Research & Laboratory Roles

Austria

- Conducted research on enhanced oil recovery (EOR) focusing on chemical solution optimization and fluid-rock interactions.
- Analyzed alkali-polymer interactions and experimental data supporting petroleum engineering studies.

Education

Montanuniversität Leoben

2019 – 2022

Dipl.-Ing. Petroleum Engineering

Leoben, Austria

Beirut Arab University

2014 – 2018

Bachelor of Engineering – Civil Engineering

Lebanon

Publications

Machine Learning Driven Problem Detection for Production Optimization – Well Cease to Flow Prediction
ADIPEC Conference, 2024

Physics-Informed Reinforcement Learning for Motor Frequency Optimization in Electrical Submersible Pumps

SPE Artificial Lift Conference and Exhibition, 2024
